

INDUSRIAL VIST REPORT

2023

Educational Tour Report

Our college management organized an Educational Tour for the II and III year students to Hogenakkal. The students enjoyed the trip a lot. On the way, we also visited Bamboo Park in Athanur. It was a memorable and enjoyable experience for everyone.

2024

Industrial Visit Report

On 16th March 2024, our department students went to Lucas TVS, Puducherry to accomplish a project relevant to their course of study as part of an Industrial Visit. A total of 33 students participated in this visit under the guidance of two staff members, with leadership contributed by Rev. Sr. Anthonyammal.

2025

On 12 feb 2025 our department of BBA students and staff along with Administrator went to industrial visit at **Birla Planetarium, Chennai, Marina Beach**, Former chief ministers memorial places our students get experience immersive shows about cosmos, stars, planets and galaxies totally 23 members went to IV including staff members.

2025

The Department of BBA organized an Industrial Visit for 60 students to **Robotics Solution, Coimbatore** on (25-07-2025). The visit was coordinated and accompanied by **Mrs. RAJESWARI, Head of the Department, Mrs. SARITHA, Assistant Professor, and Sr. ANTHONYAMMAL, Assistant Professor, BBA Department.**

The IV aimed to enrich students' practical knowledge in the field of robotics and automation. During the visit, the students observed various stages of robotic design, assembly, programming, and testing. The technical experts at Robotics Solution explained different types of robots, sensor mechanisms, automation systems, and AI-based control technologies used in industries.

Students interacted with the engineers and gained valuable insights into the latest advancements in robotics, which enhanced their technical skills and understanding beyond classroom learning. The visit provided a real-time industrial exposure and motivated students to explore emerging technologies and career opportunities in the IT and robotics sectors.

Overall, the Industrial Visit was highly informative, educational, and beneficial for all the 60 students who participated.
