Activity: Soap preparation.

Place: Unnamalaipalayam.

Students from chemistry department are very co-operative, well dedicated in their assigned works whatever given by the staff and Head of the Department. We the staff members planned to conduct various activities from chemistry department that we could reach out the people in the locality with whatever ways help them out.

Specially students from 3rd chemistry Ms.Bakya., T.Dhivya and V.Anitha had taken initiative to prepare the bathing soap. The staff incharge Ms.Punitha has directed the students with appropriate procedure. Students performed their preparation "go glow" for the new product was done in the chemistry lab as demonstration. Then it was taken to the near by village unnamalaipalayam. People were gathered in one place for learning the soap making process. Many women, men, children almost 50 number of people attended the demonstration. Many other people specially women got the procedure to make the soap by their own. We made some 10 soaps in the streets and allowed them for complete drying. The sample soap given to the people for usage.

Activity: Heal Cream Preparation

Place : Pudur Chengam.

On this day students have taken extra efforts to improve these practical skills apart from the given syllabus.

Though it is a simple project and have done with commitment. Their schematic work with full team spirit. The procedure for making Heal Cream was given to the students to prepare the cream in the lab as demonstration experiment. It was a perfect outcome which can be for cracks

on the heal. It was tried for one weak and found cured. So we decided to teach the same experiment to the people in pudur chengam around our locality. We gave announcement orally to each house of pudur chengam village. People also responded to the maximum specially women, youth boys and girls responded to attend the presentation and participated activity. Students from 3rd chemistry Ms.Booma, Mrs.Priya and Ms.Kalviyarasi presented the experiment and explained well in Tamil for better understanding to all the village people. The cream was given to the people for applying. It was benefited for all the people. They felt very happy for knowing to make the cream to apply in cracks on the heal.
