

INDUSTRIAL VISIT

2023

On 1st march 2024, the Students from the Department of BCA and Physics explored “Thermal Power Station”, Neyveli in order to accomplish a project relevant to our part of Studies called “INDUSTRIAL VISIT” 56 Students together participated in the visit , under the guidance of 5 staff members with leadership Contributed by our college Principal Rev.Sr.Dr. Lourdu Mary.

As a helpful hand , a person named Mr.Murugan Who works there as a PRO had been a good guide for our staff members and Students.

Primarily he explained how system of the coolant, chimet, turbine, monitoring and alarm system in thermal power station works and how electricity is generated and distributed from it.

Secondly we led us to “Lignite coal Mine-1” where he explained who first discovered coal, how the coal was first mined from underground in 1962, then the sophisticated Machines which and where imported from abroad to mine the coal and mine coal is sent to the TPS with an assistance of belt.

Eventually we guided us to Afforestation when he explained how the coal is reclaimed as land for agriculture.

Ultimately, on the way, we visited Vallalar jothi dharshanam in Vadalur and explored Sliver beach in Cuddalore. This industrial visit was very useful for us and we are very thankful to us college Secretary Rev.Sr,Dr.Fathima Mary for giving this opportunity.

2024

On 22nd August 2024, The students from department of BCA explained **Code Bind Technologies, Trichy** in order to accomplish a project relevant to our part of studies called Industrial Visit. 57 students together participated in the visit, under the guidance of 3 staff members with leadership contributed by our college secretary Rev. Sr. Samborna Mary.

As a helpful hand, a person named **Mrs. Sathya & Mr. Mohammad, CEO** who works there as a pro had been a good guide for our staff members and students.

Primarily we filled online registration forms for certificate. Then they explained about inplant training, HTML, CSS, Javascript, Web designing.

At last we attended aptitude test and after completing the session, we received our certificates.

Ultimately, on the way back to our college we visited Kallanai and explored Rockfort in Trichy.

This industrial visit was very useful for us and we are very thankful to our college principal Rev. Sr. Dr. Lourdu Mary for arranging this opportunity.

2025

On 25TH July 2025, The Department of BCA organized an Industrial Visit for 60 students to **Robotics Solution, Coimbatore** on (25-07-2025). The visit was coordinated and accompanied by **Mrs. Navya, Head of the Department, MRs. Arunadevi, Assistant Professor, and Sr. Arockia Jaya, Associate Professor, BCA Department.**

As a helpful hand, a person named **Mrs.sathya** who works there as a pro had been a good guide for our staff members and students .

The IV aimed to enrich students practical knowledge in the field of robotics and automation. During the visit, the students observed various stages of robotic design, assembly, programming, and testing. The technical experts at Mention Robotics Solution explained different types of robots, sensor mechanisms, automation systems, and AI-based control technologies used in industries.

Ultimately, on the way, back to our college we visited **Marudhamalai and explored Isha Yoga Centre in Coimbatore.**

Students interacted with the engineers and gained valuable insights into the latest advancements in robotics, which enhanced their technical skills and understanding beyond classroom learning. The visit provided a real-time industrial exposure and motivated students to explore emerging technologies and career opportunities in the IT and robotics sectors.

Overall, the Industrial Visit was highly informative, educational, and beneficial for all the 60 students who participated.
